PREMIUM Automotive Lighting

NightDefense® ENHANCED FIELD OF VISION™

Wagner® NightDefense® capsules feature an exclusive tri-color/ tri-zone coating that disperses light up to 40 percent brighter and projects a beam pattern up to 60 feet longer than standard OEM lamps. This unique technology provides a yellow light at the top view to be non-glaring into oncoming traffic while the whiter wider light makes it easier to read signs on the side of the road.

- Tri-color Light Disbursement for Optimal Viewing
- 40% Brighter
- 60' Longer View
- Ideal for Rural Settings

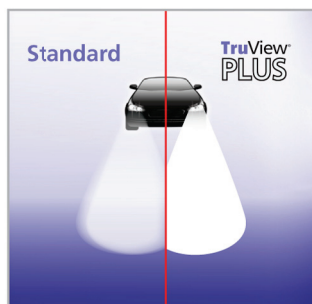

TruView® PLUS PUREST, WHITEST LIGHT™

Wagner® TruView® PLUS capsules feature a Xenon gas charge to last longer, offer the "Purest, Whitest Light™" among replacement capsules and provide the look of High-Intensity Discharge (HID) lamps. TruView PLUS provides exceptional forward visibility without projecting the offensive (and potentially dangerous) glare commonly associated with HID systems.

- Whiter Blue Light to Reflect Better Off of Street Signs
- Reduced Glare for Oncoming Drivers

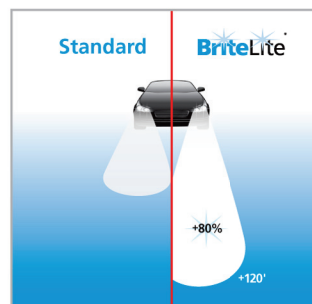

BriteLite® MAXIMUM VIEWING AREA™

Wagner® Brite Lite® capsules are equipped with Xenon gas and high-powered low-beam filaments. These lighting capsules deliver 80 percent more light to the road and create a beam pattern that is 120 feet longer than standard halogen headlamps.

- 80% Brighter
- 120' Longer View
- Longest Street Legal Light
